### Instructions:

1. Go through your Designer Series Paper collection and find 5 patterns that coordinate with each other. Lay them out in different ways until you find the combination that you like best. For this sample, I used papers that had the same colors, focusing on the Calypso Coral, Old Olive, and Basic Black. I also alternated dark and light papers for the most interest.
2. Adhere strips to Basic Black layer, leaving a 1/8" border. Adhere to card base.
3. Stamp greeting on strip of Very Vanilla, layer onto Basic Black and adhere to card.
