2. Stamp the sentiment on the bottom right hand side of the card using the Emerald Envy Ink Pad
3. Stamp the "splash design" first in Blushing Bride ink, then in Emerald Envy ink as shown in the photo above
4. Attach the window sheet to the back of the Very Vanilla layer so it blocks the hole where the butterfly was cut.
5. Attach the designer paper layer 2, to the card base.

6. Line the designer paper layer with the foam adhesive strips. (leave the backing on the top for now).
7. Use the Confetti Star Punch to punch scraps of Emerald Envy, Peekaboo Peach and Dazzling Diamond Glitter Paper. Put the confetti in the "box" that you made with the adhesive strips.
8. Peel the backing of the adhesive strip off to expose the adhesive and place the top layer of the card on top.
9. Cut a 2" piece of Emerald Envy Ruched Ribbon and attach it to the card with glue dots.
